Training Parameters

Sector	Infrastructure Equipment
Sub-Sector	Equipment Service and Spares
Occupation	Equipment Maintenance
Country	India
NSQF Level	4
Aligned to NCO/ISCO/ISIC Code	NCO-2015/ 7233.0701
Minimum Educational Qualification and Experience	8th Grade pass with 2 year NTC plus 1 year NAC OR 10th Grade pass plus 1 year NTC/ NAC OR 10th Grade pass with 2 years of relevant experience OR 10th Grade pass and pursuing continuous schooling OR 11th Grade Pass OR IES/Q01104 - Junior Mechanic hydraulic NSQF Level 3 with minimum education as 5th Grade pass with 2 year relevant experience
Pre-Requisite License or Training	NIL
Minimum Job Entry Age	18 Years
Last Reviewed On	17/11/2022
Next Review Date	17/11/2025
NSQC Approval Date	17/11/2022
QP Version	3.0
Model Curriculum Creation Date	30/10/2022
Model Curriculum Valid Up to Date	17/11/2025
Model Curriculum Version	1.0
Minimum Duration of the Course	420 Hours

Maximum Duration of the Course	420 Hours
--------------------------------	-----------

Program Overview

This section summarizes the end objectives of the program along with its duration.

Training Outcomes

At the end of the program, the learner should be able to:

- Describe the basic working principles of Hydraulic system.
- Describe the function hydraulic components.
- Describe the working of hydraulic systems.
- Perform daily and routine maintenance activities in the hydraulic system.
- Employ suitable techniques for troubleshooting the problems.
- Demonstrate the techniques for removal of defective components, rectification, re-assembly and testing.
- Perform troubleshooting with proper diagnostic tools.
- Describe the procedure for reporting and escalation of unresolved problems.
- Describe Environment, Health and Safety (EHS) policies.
- Demonstrate use of personal protective equipment, fire-fighting equipment and show how to give basic first aid for common injuries.

Compulsory Modules

The table lists the modules and their duration corresponding to the Compulsory NOS of the QP.

NOS and Module Details	Theory Duration	Practical Duration	On-the-Job Training Duration (Mandatory)	On-the-Job Training Duration (Recommended)	Total Duration
Bridge Module	4	0	0	0	4
NOS Code – IES/N 1103 NOS Name - Carry out repairs and maintenance of Equipment's Hydraulic system NOS Version - 3.0 NSQF Level - 4	30	90	60	0	180
NOS Code – IES/N 7701 NOS Name – Carry out reporting and documentation NOS Version - 3.0 NSQF Level - 4	30	90	30	0	150
NOS Code - IES/N 7602	30	30	0	0	60

NOS Name - Comply with Workshop Health and Safety Guidelines NOS Version - 3.0 NSQF Level - 4					
NOS Code - DST/VSQ/N0101 NOS Name - Employability Skills 30 hrs NOS Version-1.0	0	30	0	0	30
Total Duration	90	240	90	0	420

Module Details

Module 1: Orientation

Bridge Module

Terminal Outcomes:

- Understand the operations of the infrastructure industry in India.
- Understand the skill training schemes in the Skill Sector Councils.
- Discuss about different types of job roles available in IESC.
- Explain the roles and responsibilities of the Mechanic - Hydraulic.

Duration: <4:00>	Duration: <0:00>
Theory – Key Learning Outcomes	Practical – Key Learning Outcomes
<ul style="list-style-type: none"> • Describe the importance of skill training and bridging the skill gap to improve work efficiency. • Explain the roles and responsibilities of Mechanic Hydraulic. • Understand and describe the scope of employment opportunities in the industry for Mechanic Hydraulic Job role. • Describe different technical trainings conducted in SSC for multi skill an individual. 	NIL
Classroom Aids:	
Computer, projector, printer, student table, whiteboard/flip chart, markers and duster	

Tools, Equipment and Other Requirements

Module 2: Repair and Maintenance of Hydraulic system

Mapped to NOS Code – IES/N 1103 v3.0

Terminal Outcomes:

- Understand basic working principle of the hydraulic system.
- Understand the function of components involved in the hydraulic system.
- Read and understand the manufacturer’s manuals related to the equipment’s hydraulic system, correct operation & maintenance.
- Perform daily and routine maintenance activities in the hydraulic system.
- Discuss with customers as and when necessary to understand problems and issues.
- Employ suitable diagnostic tools for troubleshooting various problems.
- Explain the process of repair and maintenance of the Equipment’s hydraulic system.
- Demonstrate the repair/ replacement of the defective hydraulic components.

Duration: <30:00>	Duration: <150:00>
Theory – Key Learning Outcomes	Practical – Key Learning Outcomes
<ul style="list-style-type: none"> • Describe the functions of hydraulic pump, motor and valves. • Understand and elaborate the technical specifications of hydraulic system. • Refer to the manufacturer’s manual for the correct procedure to conduct hydraulic system maintenance. • Understand the importance of cleanliness of hydraulic fluid • Understand the use of various diagnostic tools for troubleshooting various problems. • Know the correct equipment operation techniques to avoid component failures. • Explain the correct sequence to troubleshoot hydraulic problems. 	<ul style="list-style-type: none"> • Conduct daily and periodical maintenance of hydraulic system. • Show how to troubleshoot the hydraulic system for various problems • Employ the correct procedure to check the hydraulic pressure and flow. • Demonstrate the procedure to repair or replace defective components. • Demonstrate how to remove and fit hydraulic components from the machine. • Show how to dis-assemble and assemble the hydraulic component inside workshop, when necessary.
Classroom Aids:	
Computer, projector, student table, whiteboard / flip chart, markers and duster Cut-outs & models of major parts like, control valve	
Tools, Equipment and Other Requirements:	
Hydraulic pump, motor, valve bank and valves Standard tools for dis-assembly and assembly Manufacturer’s Equipment Operation, Service and Repair Manual	

Module 3: Reporting and documentation

Mapped to NOS Code – IES/N 7701 v3.0

Terminal Outcomes:

- Describe the documenting process of various maintenance activities.
- Prepare a list of parts to be procured and initiate procurement action.
- Make a repair estimate of the component to be repaired
- Prepare and maintain a file for the repair & maintenance history of every equipment.
- Demonstrate the procedure to escalate unresolved problems

Duration: <30:00>	Duration: <120:00>
Theory – Key Learning Outcomes	Practical – Key Learning Outcomes
<ul style="list-style-type: none"> • Understand the importance of maintaining data about equipment maintenance and repair. • Explain the reporting and escalation procedure. • Describe the importance of filling documents and processing them. • Know the correct format in which to report problems with proper evidence. • Explain the escalation matrix of the organization to report unresolved problems. 	<ul style="list-style-type: none"> • Apply methods to escalate problems and incidents. • Prepare and maintain a repair history file for every equipment. • Use prescribed formats and record maintenance details accurately. • Employ suitable practice in keeping all the documents ready for inspection and audit. • Prepare the parts list and repair estimate to repair the component.
Classroom Aids:	
Computer, projector, student table, whiteboard/flip chart, markers and duster Organizations reporting formats, Manufacturer’s Equipment Service, parts and Repair Manual.	
Tools, Equipment and Other Requirements	

Module 4: Workshop health and safety

Mapped to NOS Code: IES/N 7602 v3.0

- Describe the guidelines for health, safety and security requirements.
- Identify common hazards and risks at workshop.
- Employ safe practices to use diagnostic tools.
- Explain the emergency procedure to stop and shut down machinery.
- Perform basic first aid treatment for common injuries.
- Demonstrate the operation of firefighting equipment.
- Elaborate the guidelines for storage and disposal of hazardous materials and waste.
- Classify various safety signs, symbols and warnings used in workplace

Duration: <30:00>	Duration: <30:00>
Theory – Key Learning Outcomes	Practical – Key Learning Outcomes
<ul style="list-style-type: none"> • Describe the Health, safety, environmental (HSE) policies. • Explain the reporting procedure for all HSE activities • List down the contact details of HSE personnel, in case of emergencies. • Classify waste based on non-recyclable, hazardous and recyclable material. 	<ul style="list-style-type: none"> • Show the correct use of Personal Protective Equipment (PPE). • Demonstrate the operation of fire-extinguishers. • Demonstrate the procedure to give basic first aid. • Prepare a hazard log register and report incidents and accidents. • Conduct a mock drill for dealing with emergencies like fire and other calamities.
Classroom Aids:	
Computer, projector, printer, student table, whiteboard, flip chart, marker and duster	
Tools, Equipment and Other Requirements	
Fire Extinguishers, Personal Protective Equipment and other safety gears	

Module 5: Employability Skills

Mapped to NOS: DST/VSQ/N0101

Terminal Outcomes:

At the end of this module, the learner should have acquired the listed knowledge and skills.

- Discuss the importance of Employability Skills in meeting the job requirements
- Show how to practice different environmentally sustainable practices
- Display positive attitude, self -motivation, problem solving, time management skills and continuous learning mind-set in different situations
- Demonstrate how to communicate in a well -mannered way with others
- Demonstrate working with others in a team
- Show how to conduct oneself appropriately with all genders and PwD
- Discuss the significance of reporting sexual harassment issues in time
- Discuss the significance of using financial products and services safely and securely
- Explain the significance of approaching the concerned authorities in time for any exploitation as per legal rights and laws
- Show how to operate digital devices and use the associated applications and features, safely and securely
- Discuss the significance of using internet for browsing, accessing social media platforms, safely and securely
- Discuss the need for identifying opportunities for potential business, sources for arranging money and potential legal and financial challenges
- Explain the significance of identifying customer needs and addressing them
- Create a biodata
- Use various sources to search and apply for jobs
- Discuss the significance of dressing up neatly and maintaining hygiene for an interview
- Discuss how to search and register for apprenticeship opportunities
- Describe opportunities as an entrepreneur

Duration: <00:00>	Duration: <30:00>
Theory – Key Learning Outcomes	Practical – Key Learning Outcomes
<ul style="list-style-type: none"> • NA 	<ul style="list-style-type: none"> • Discuss the importance of Employability Skills in meeting the job requirements • Show how to practice different environmentally sustainable practices • Display positive attitude, self -motivation, problem solving, time management skills and continuous learning mind-set in different situations • Demonstrate how to communicate in a well -mannered way with others • Demonstrate working with others in a team • Show how to conduct oneself appropriately

Assessment Strategy

Criteria for assessment for Qualification Pack has been laid down based on the NOS's.

Each Performance Criteria (PC) has been assigned marks proportional to its importance within NOS and weightages have also been given among the NOSs accordingly.

The assessment of the theory/knowledge will be based on written test/viva or both while skill test shall be hands on practical.

Behavior and attitude will be assessed while performing the assigned task.

The assessment shall be done as per the guidelines formulated by IESC.

The assessment agencies in consultation with IESC will create unique question papers for theory/knowledge and practical skills at each IESC accredited testing centers (as per assessment criteria below)

To pass the Qualification Pack, every trainee should score a minimum of 70%.

In case of successfully passing only certain number of NOS's, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification pack.

Glossary

Term	Description
Declarative Knowledge	Declarative knowledge refers to facts, concepts and principles that need to be known and/or understood in order to accomplish a task or to solve a problem.
Key Learning Outcome	Key learning outcome is the statement of what a learner needs to know, understand and be able to do in order to achieve the terminal outcomes. A set of key learning outcomes will make up the training outcomes. Training outcome is specified in terms of knowledge, understanding (theory) and skills (practical application).
OJT (M)	On-the-job training (Mandatory); trainees are mandated to complete specified hours of training on site
OJT (R)	On-the-job training (Recommended); trainees are recommended the specified hours of training on site
Procedural Knowledge	Procedural knowledge addresses how to do something, or how to perform a task. It is the ability to work, or produce a tangible work output by applying cognitive, affective or psychomotor skills.
Training Outcome	Training outcome is a statement of what a learner will know, understand and be able to do upon the completion of the training.
Terminal Outcome	Terminal outcome is a statement of what a learner will know, understand and be able to do upon the completion of a module. A set of terminal outcomes help to achieve the training outcome.
